PETER PAN

My favourite character is Peter Pan from the book with the title "Peter Pan in Scarlet''. I read that book last Christmas.

THE SUMMARY

Peter Pan is a little boy who can fly and lives in "Neverland". One night he appeared in London at the house of a family with three children. Peter Pan asked if they could come with him in Neverland and help him to confront the new danger in his country. And the whole book is about their adventures.

PETER PAN

I like this character because Peter Pan is very brave. He has bad moments but he can manage to overcome them with the help of the three children. He is well-behaved and he is now ready for new adventures with his friends. Except from this, he is very good with these children and they become friends.
