

Official Rock Rescuing Organization

Also known as..ORRO

What is our Purpose?

- ORRO's purpose is to rescue rocks from humans who don't show mercy to those beautiful creations of nature. We will keep expanding until we can save rocks from all over the world.

How do humans harm rocks?

1) By tossing them...
for different reasons

2)By breaking them... mercilessly!!

Or even worst...

By taking them at their houses,
modifying them and decorating them
to their desks!

How do we stop that?

- We go and rescue rocks from places full of human activity such as parks and streets.
- We find the species of the rescued rocks and write them to a notepad.
- Then we take the rocks and let them free in a rock-friendly environment when they can live safely.

How many people work with ORRO?

- ORRO is an independent organization set up by a group of rock lovers, including me, who are watching terrible actions of humans to innocent rocks.

What have we accomplished until now

After 2 years of activity we accomplished...

- to rescue more than 2000 rocks...
- to build 3 outposts to 3 different cities in Greece...
- and to persuade more than 2 persons to join our organization

Qs and As

- Are you doing this as a full time job?
- Do you save boulders or stones?
- Do you receive hatred from people?
- Are you taking this seriously?

And remember...if you help us achieve
more and rescue more rocks...

YOU
ROCK! 😊

The End!!!!

Petros Ntourakis
