

The background is a lush green gradient. In the center is a rectangular patch of bright green grass. A thin, winding vine with small leaves is draped over the grass. Two butterflies with yellow and black wings are positioned on either side of the grass patch. A small red ladybug with black spots is on the grass. The corners are decorated with various green leaves and foliage.

Our Logo:

Our target:

We transform great companies to green ones to protect our planet from their pollution.

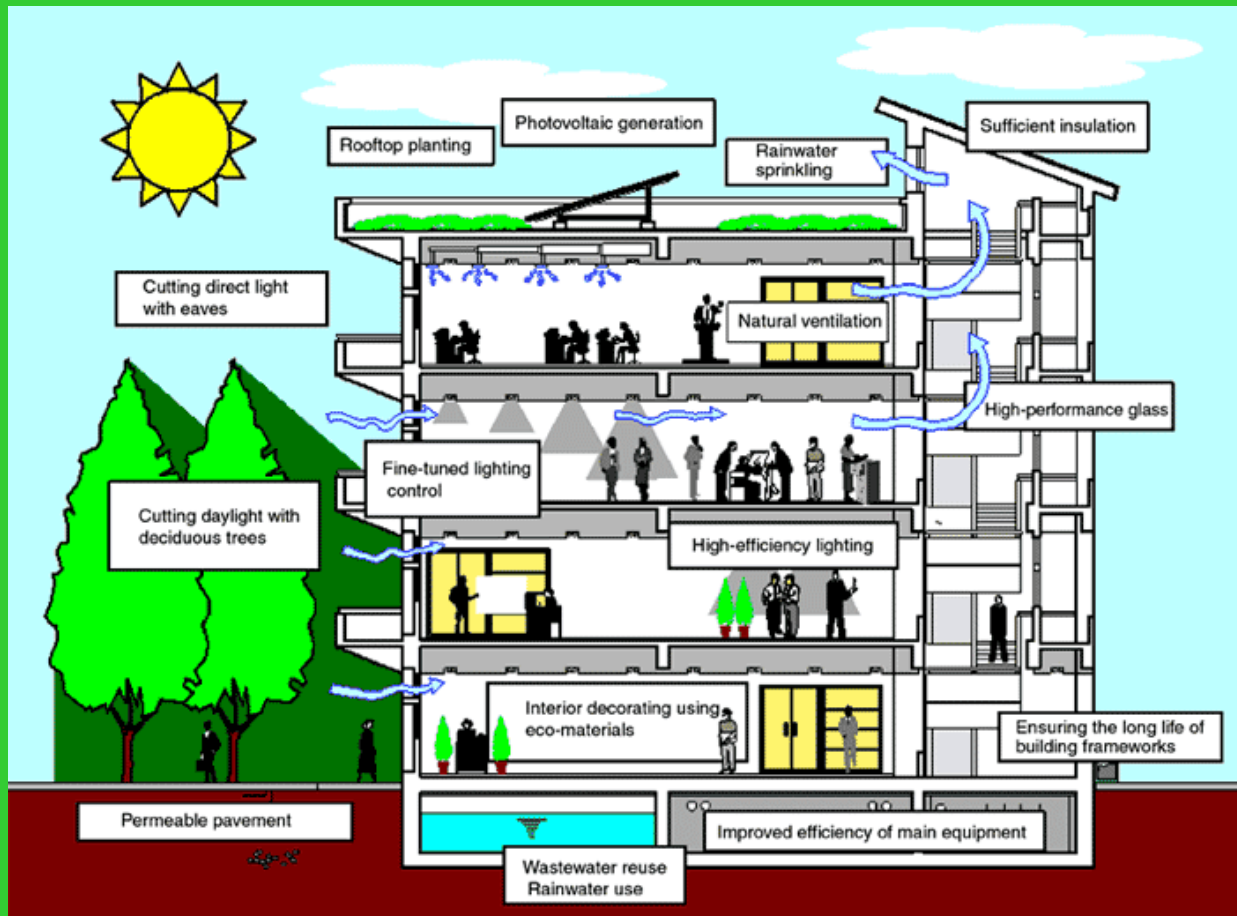

How we achieve this:

- We find the suitable company.
- We get in contact with them.
- We make a plan about the changes that must be done.
- We transform the company.
- We are one step closer to a greener planet! ☺

What changes we make:

- We try to use many renewable energy sources to the buildings and generally we try to take advantage of every available ecological resource.
- We make sure that the companies use environment-friendly materials.

Recyclable Materials

Cardboard and Paperboard
(cereal boxes)

Glass

Aluminum and Steel Cans

Paper
(White and pastel office paper, newspaper, phone books, magazines and catalogs.)

All Plastics
(#1 - #7)

Styrofoam

Why us?

- For helping our planet get less polluted!
- For making your company more attractive to the public!
