

# *DREAM HOMES*

An underwater city

# An underwater city

- Last year scientists invented how to live under the water so they built an underwater city.

# An underwater city

- Many people went to live there and now there are 1.000.000 people who live in the underwater city.

# An underwater city

- Under the water the houses are made of glass so you can see the view of the sea and the fish.

# An underwater city

- The underwater city communicates with the land with a big tunnel. You can go there on holidays or live permanently.

# An underwater city

- Try to go there on your holidays and I am sure you will want to go again.
