

My DREAM HOUSE

by Nikitas Tsafaras

I imagine my dream house at the top of a mountain. It will have a swimming pool and a football field. My house will be very big. It will have seven bedrooms and four bathrooms with a Jacuzzi, of course. The most important room in the house will be the kitchen. Five chefs will prepare different menus and desserts only for me twice a day. A special robot – servant will realize every wish of mine. I will organise parties for my friends very often in order to celebrate. The house will also have a huge room full of video games, PlayStation and Nintendo so as to play with my friends. I forgot to mention that in my dream house I will even have a private aeroplane so I can travel to different places of the world whenever I want to.
