

My role model

Christina Karandrea

My role model

I admire the role and work of the Doctors of the World.
It is an organization created to provide care and humanitarian assistance to countries affected by natural disasters, wars and poverty.

My role model

It consists mainly of doctors . These people have the courage and mental strength to face poverty and hardship and to provide basic medication to people who have no economic ability .

My role model

They live close to the people who need their assistance, share their problems and respect the traditions and customs of the country in which they operate.

My role model

I would like to meet the Doctors of the World and learn about their missions. When I grow up, I want to take part in one of the missions.
