

## MY FAVOURITE FREE TIME ACTIVITY

*Jess loves drawing because he can escape from chores and his terrible family problems. I like drawing too, mostly humans but it isn't my favourite free time activity. What I really love is playing and watching football. This is my way to relax and to have fun. I haven't joined a football team - I usually play football with my friends at school, either at PE or at sport breaks. I play with my brother as well. We play everywhere in the house. When I say everywhere I mean in the kitchen, in my bedroom, at the balcony and in the hall. This makes my parents go crazy but when I play I forget everything, like school, homework, tests. Watching football games on TV is also great. My favourite team is REAL MADRID and it plays in Primera Division and Copa del Rey. So, this is all about my free time. I hope that I will play for Real when I get older.*
