

At my school I usually hang out around talking, playing volleyball and eating a snack with my friends! We have fun during the breaks. The boys play football or run around the school fields with no reason; they usually fight and they play hide and seek. On the other side the lower grade girls play with Barbie dolls, they eat and they jump around.

When the weather is bad, it is fantastic! We stay in the classroom, we sit wherever we want, we draw, we read books and we eat. If we want, we can go to the library and borrow books. We sometimes play computer games in the library and we chat. If we like music, we can stay in the music room and play the piano.

All days are wonderful when you spend time with your friends!!!!!!!!!!!!!!!!!!!!
