

In my school, at recess, boys usually play football or basketball and girls generally talk about shopping or new clothes. Sometimes, boys and girls play hide and seek all together. Some also spend time talking with teachers or others go to the library. Everyone eats their snacks!

If the weather is bad, all the students stay in their classrooms and play board games. But, even then, all of us- I think- have a great time. This is recess at my school.

If you want, come and join us. We'll have a great time!
