# **Celebrate with friends, or simply meet them for dinner**

In Greece: When we go out with our friends to celebrate our name day or our birthday or when we simply meet our friends for dinner, we usually try traditional dishes and prefer to go to Greek tavernas.

Young people also try dishes from other traditional cuisines like Burgers, Pizza, Italian spaghetti, Chinese or Mexican food and Crepes.

# **Traditional cuisines I have tried**

I have tried American dishes and I like burgers and hot dogs. I also like Italian dishes, especially pizza margarita and spaghetti carbonara. I like apple cakes from Germany and I like French sweets very much, like sweet crepes, profiterol, chocolate souffles and eclairs.

# Unappetizing foods from all over the world

Except from the interesting and tasty dishes, some traditional cuisines have some unappetizing dishes which I would never want to try.

Some of them are:

- **Fried grasshoppers**, a popular snack in Thailand.
- **Balut**, a dish which is a developing duck embryo boiled alive in its shell and served in Philippines.
- **Cobra's heart**. In Vietnam, people eat cobra's heart totally raw.
- **Chicken feet**, a dish served in East Asia, South America and South Africa.
