

My dream destination

by Maria Papayiannakopoulou

My dream destination is Africa. I have seen parts of documentaries about different countries of this continent. Here are the reasons why I want to visit Africa.

First of all, Africa is the world's second –largest and second-most populous continent. I'd like to visit Mount Kilimanjaro with its three volcanic cones. It's the highest mountain in Africa .You can go trekking or climbing there. I think that is amazing.

Secondly, I'd like to visit Egypt which is in the northern part of Africa. It is famous for the Pyramids. I would like to visit the Great Pyramid of Giza. I think it is very interesting.

Thirdly, I'd like to visit a safari park. There, you can drive your car in the wildlife park and you can see large animals, such as giraffes, lions, elephants and zebras. I think it is exiting.

Finally, I'd like to visit one of the poorest countries in Africa. I'll meet the kids and give them toys, books, food and clean water.

If my dream comes true, I'll be the happiest person in the world.
