- First of all, New York is the centre of the civilized World and the heart of the United States of America. It's the city with big skyscrapers and it looks like a future city .

- In New York you can meet people from all over the world .You can also taste food from many countries and you have the chance to visit many interesting museums.

- It's the centre of many international organizations, like the United Nations, and the economic centre of the world in Wall street.

New York has famous universities and schools of arts. And finally, there is Madison Square Garden where you can watch the New York Knicks, the famous NBA team.
