

## ☯ RECESS ☯

---

**A**t recess, I usually go with my friends to the school theater and talk about things that are happening to us or about school matters or news from our personal life. At the same time, we eat the food we have brought from home or have bought from the canteen.

During the break some boys and some girls play 'tag' and other games. Also, there are boys and girls that go to the library to play chess, read books or use the computer library.

If the weather is good, we go out and walk in the playground. Also, we sometimes play games with our classmates. But when the weather is bad, we go to the library or to the school theater or we stay in the classroom with our teacher and classmates.
