

What I liked most about my experience in the first grade of high school was the Forensics afternoon activity of our school. When I first started, I wasn't really keen on it, but as the weeks passed and competitions came, I changed my mind. It really helped me to build my confidence and improve my English. Also, my arguments became stronger every time, thanks to constant practice. I have only taken part in 2 competitions so far and although I was really nervous, I had a great time! The last tournament I participated was the PFAT and I was a member of a Group Discussion panel. I think that I did quite well, as it was my first time doing it! I can't wait for next year!
