ALL ABOUT THE GRIZZLY BEAR

LOCATION:

- ❖ Grizzly Bears live in North America. You can see them in Canada, Alaska, Montana and Idaho.

Food:

They eat roots, grass, deer, fish, dead animals and insects.

LOOKS:

Weight: 180 kg

Length: 1.98 m

Colour: brown with dark legs

ACTIVITIES:

They hibernate (sleep) for 5–7 months each year.

When they wake up, they hunt and they protect their babies from other wild animals.

INTERESTING FACTS:

- ❖ Grizzly Bears are excellent swimmers.
- ❖ They can run very fast.
- ❖ They can see and smell very well.
