

koala

Where do koalas live?

Koalas live
in Australia.

What do they look like?

They have small eyes, soft hair, big ears, sharp nails and a big head.

They are 60-85 centimeters long and they are very quiet.

What do they eat ?

▶ They only eat plants.

An adult Koala eats about half kilogram to one kilogram of leaves each night.

What are their daily activities?

- ▶ Koalas sleep 20 hours a day because they get so little energy from their food.
- ▶ They move 4 hours a day.
- ▶ They are active at night and most of the time they eat.
- ▶ Koalas live around 10-12 years.
- ▶ Koalas live on the trees.

Interesting Facts

- ▶ Koalas don't need to drink water because they get energy from leaves.
- ▶ Koalas are excellent and fast swimmers.
- ▶ Koalas grow and develop in the pouch of their mothers for the first six months.
