

# Ostrich

**CREATED BY MELINA POULOPATI**

# Where does it live?

- Most of them live in South Africa.
- You can also find ostriches in Australia.

# What does an ostrich look like?

- It has long skinny legs, a big body with small wings and a long neck.
- It is very tall , but it has a small head.
- The ostrich is the largest and heaviest bird in the world.
- They are birds but they cannot fly.

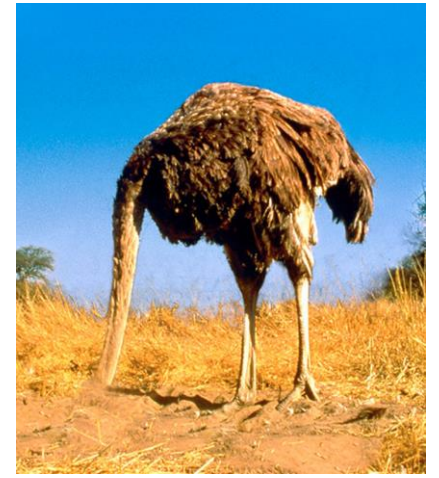

# What does the animal eat?

- Their diet consists mainly of roots, leaves, and seeds.
- They also eat insects, snakes, lizards and rodents.

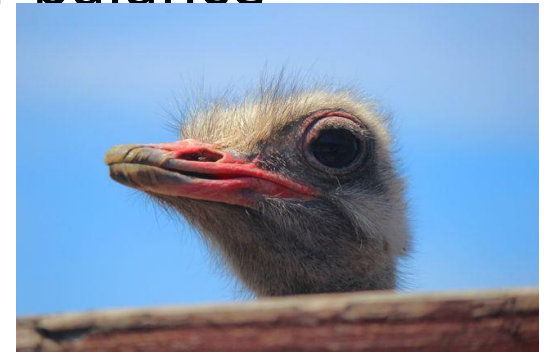

# True facts & pictures

- They can run like the wind! Their long, powerful legs can run over 70 kilometres per hour. Their wings help them to keep their balance when they run.
- Ostriches bury their heads in the sand.
- The ostrich has the largest eye of any land animal.
- Because they don't have teeth, ostriches swallow pebbles to grind their food. An adult ostrich carries about 1kg of stones at any one time.

# What can you do with this animal for fun?

- You can ride an ostrich!!!!
- Or, you can feed the animal!!
- Video!!
