

ALL ABOUT TIGERS

by Panagiotis Xirogiannis

- Tigers live in India.
- They have small eyes, small ears, a big mouth, a big body, a long tail, a big hairy head and four short legs.
- They also have very big teeth and they eat small animals.
- They are orange, brown and white.
- Tigers are excellent swimmers and climbers with powerful muscles and big nails.
- Each tiger has a unique pattern with stripes.
- They live 15-20 years.

Thank you very much!!!
