

**MUN (Model United Nations)** is a great experience for young and older students. From my experience at the Haileybury MUN this year, I gained a lot of knowledge about the problems that our world today is facing and I came up with effective solutions to the questions that I was asked to solve. An MUN delegation requires a lot of preparation and willingness to draw and eventually write resolutions for all your topics, but in the end, the results are very satisfying. I'm not totally satisfied by my overall performance, but with the experience I gained, I think, I will do better in the upcoming MUNs next year.
