

MY HAILEYBURY MUN EXPERIENCE

This is my third **MUN Conference** so far, and I should say it was a little bit difficult, but this is not a serious reason not to attend such an event.

Firstly, one learns a lot of things by doing research on their topics. Also, one can improve their vocabulary as they come across some new and complicated words and advanced terms. This **MUN** gave me courage to speak a lot in my committee and helped me to make lots of new friends. Some procedures were complicated but I got used to them as the only thing I had to do was to read the instructions carefully. Moreover, I became more experienced in this **MUN** and that can only be beneficial.

A piece of advice for such conferences would be to be calm and ask for feedback from your chairs, who are the people responsible for the committee and are always willing to help. Such was the case in the **Haileybury MUN** as well.

Overall, it was a pleasant experience that is worth going to.
