

The country I would like to visit.

The country I would like to visit is Japan!

The main reason I want to visit this country is because I like modern technology and Japan is very developed.

My opinion is that technology is the future!

Another reason is the drift cars, as my brother is dealing with them!

I think drift races are amazing and I have watched many!

Also, I like to eat Japanese snacks, sweets and their traditional food!

Also, since I was three years old, I have wanted to see and hug a panda!
They are so cute!

Japan is a beautiful country but it damages the environment with many factories and lots of experiments, although they don't have weapons.
