

There are many countries that I could visit but I would choose **the USA**, my favourite!

There are many reasons I would like to visit the USA. One of them is that if I went there, I could practise my English.

More specifically, I would like to be in New York City, since I have read a lot things about this city. For example, I want to see big buildings such as the Empire State Building, in order to go up to the 86th floor, at the outside observatory, and view the city up to 80 miles far away.

Also, I would like to see the Statue of Liberty, which is the symbol of freedom and democracy. In addition, there are great museums like the Museum of Natural History and the Museum of Modern Art. In New York City, it would be a great experience to watch a basketball match live!

I hope to visit **New York City** and other USA cities very soon!
